

REMARKS

In response to the Election of Species Requirement, applicants elect Species C of Fig. 11.

The election is made with traverse, since as explained in the specification at page 10, lines 30-34, Fig. 11 is a diagram showing the structure of a control part of a PDP apparatus in accordance with a third embodiment of the present invention--which control part would replace the conventional control part 15 of the PDP apparatus as shown in Figs. 1-6.

Further, Fig. 12 is a flow chart showing the power control action of the third embodiment.

Accordingly, it is respectfully submitted that Species C should include both Figs. 10 and 11 and, as well, taken in combination with Figs. 1-6.

Applicants list claims 1-3, 7, 10 and 11 as reading on Species C.

If there are any additional fees associated with filing of this Amendment, please charge the same to our Deposit Account No. 19-3935.

Respectfully submitted,

STAAS & HALSEY LLP
